

PROFESSIONAL SUMMARY

12+ years of experience in QA engineering across banking, hospitality, healthcare, cloud, and construction. Certified PSPO and ISTQB-trained. Expert in test strategy, regulatory compliance, automation, and Agile methodologies. Currently expanding into AI, prompt engineering, and conversational bots during a sabbatical year in Southeast Asia.

EXPERIENCE

Skills Development & Technology Watch @ Sabbatical Year | 2025-2026

Ongoing courses in Generative AI, Prompt Engineering (Google), and Digital Product Management. Building side projects related to AI, automation, and conversational bots. Traveling across Southeast Asia.

Skills:

QA Consultant Engineer - Large Account/CIO @ BRED Bank | 2 yrs

Regulatory compliance of banking systems to new French standards (Sept 2026 deadline). Defined and maintained test strategy covering the core perimeter. Led acceptance campaigns covering 100% of business epics. Created test datasets in Mainframe/SQL Oracle environments. Guaranteed 100% regulatory compliance ahead of deadline.

Skills:

Mobile QA Lead @ Accor Hotels | 2 yrs

Global mobile QA lead for Android & iOS apps (100+ countries). Co-created User Stories with Product Owner and Dev team. Led functional acceptance and regression campaigns in Agile Scrum. Wrote 100% of test cases in Gherkin covering critical user journeys. Managed defect lifecycle and delivered Go/No-Go reports.

Skills:

Software Quality Manager @ Visiodent

Managed testers team on healthcare software. Coordinated external vendor for test automation.

Skills:

QA Lead @ Oodrive | 2 yrs

European leader in sovereign B2B cloud storage. Developed and executed functional and regression test plans for critical B2B/B2C applications. Cross-platform portability testing (Windows, macOS, Linux). Level 3 technical support.

Skills:

QA Consultant Engineer @ Vinci Construction

Functional acceptance testing on SAP BPC web apps. UI/UX compliance and data integrity validation.

Skills:

Test Engineer & L3 Support @ Profil Technology | 5 yrs

Multi-platform software (VADoZ) and security OS (Bianne WebFilter). Cross-platform functional and regression test campaigns. AutoIT automation. Dedicated security test lab.

Skills:

TECHNICAL SKILLS

Testing

JIRA Xray/Zephyr, Katalon, TestComplete, Ranorex, Gherkin, Charles Proxy

Backend & Data

SQL Oracle, Mainframe, DB2, SoapUI, LISA

Environments

Android, iOS, Web, Windows, Linux, macOS

Tools

Confluence, ServiceNow, Redmine, Dynatrace, Tuleap

Other

SAP HANA, AutoIT, Agile/Scrum, SAFe, SDLC, UAT

Agentic IA

Hermes Agent, ClawBot, Claude Code, Codex CLI, Tests LLMs cloud/locaux, Prompt Engineering, MCP, Délégation de tâches, Pipelines autonomes, Agent-driven QA pipelines
